Electronic registration for the foreign language exam

1. Before starting registration, each student must check http://usosweb.uni.opole.pl, whether it has **1 EJO token** that will enable him or her to register for the exam.
2. If the student does not have such a token, he or she must write an email to **zetony@uni.opole.pl with the following details: name, surname, index number** and will receive such a token within a few days.
3. One EJO token gives the student an opportunity to register for the exam.

   After registering for the exam, the student has different options to consider:
4. OPTION 1: the exam following the foreign lg course (120h covered) - a student must register for your subject in your teacher's group, i.e. to the group with a description, e.g.: "**Spanish B2 exam - group led by ...**"(name your teacher).
5. OPTION 2: astudent who has a certificate confirming their B2 level in a foreign language must register to a group with the description: "**Students with certificate" to get a grade in the exam based on that document**
6. OPTION 3: a student who may be exempt from the exam itself (e.g. they passed it when studying a different study programme) must register for the group with the description: **"Exam rewrite".**
7. OPTION 4: **First-year students admitted to the exam in the February or June session after taking a diagnostic test must register for a group with the description "Pre-lecture examination for the first year".**
8. If a student registers for the wrong group, or registers and does not report to exam, he will lose his token.
9. Registration for the exam will take place at the end of each semester, respectively earlier before the exam.
10. A student who is not registered in the system will not be allowed to take the exam.
